

IT Project Manager Job Description

IT Project Manager

Prometheus8

Location: Remote

Salary: From \$120,000 a year - Full-time

Benefits: Paid vacation and sick leave • 401(k) after first 60 days • Direct payment of employee's medical coverage

Position Summary

Prometheus8 (P8) is a global leader in DevSecOps solutions, and we are seeking an experienced IT Project Manager to head up our managed service offering. The ideal candidate will act as a coordinator between our customers and our development team. In most cases, this individual will follow Agile and DevSecOps practices to implement solutions for our customers. Understanding customer needs and translating them into tasks that can be implemented by developers is the main responsibility of this position. Additionally, this individual will become a critical stakeholder in the acceleration of P8's growth strategy and will be compensated accordingly with above average pay, benefits, and possible stock options.

Essential Functions

- Provide technical leadership on projects and work closely with business development teams and engineering staff to support the adoption of P8's proprietary solutions
- Build a rapport with P8 clients and maintain continuous communication
- Ability to serve as a coordinator for all project activities with special emphasis on design and testing documentation
- Maintain consistent documentation of activity logs, issue tracking, and resolution of software defects
- Work with P8 clients to establish a consistent delivery process and schedule utilizing Agile methodologies
- Leverage technical understanding to direct others on the creation of automated routines in a CI/CD environment
- Acts as a lead in the creation, preparation, and execution of project plans
- Demonstrate excellent judgment in customer relations and in managing company resources
- Represents the company to customers in a professional manner and assumes accountability for customer satisfaction

Education & Experience

- Degree in Computer Science, Management Information Systems, or a relevant field
- 10+ years of IT project management or development experience required
- Verifiable Project Management Professional (PMP) certification
- Experienced in Agile development practices and knowledge of CI/CD process automation
- Ability to bring enthusiasm, energy, developing mission, vision, and strategy for competitive differentiation

Prometheus8, Inc. Overview

P8 is a fully integrated, end-to-end software development and DevSecOps managed service provider. P8's suite of services and technology provides application development at scale with greater speed, efficiency, and at a lower cost. P8's proprietary platform (the P8 Platform) allows development teams to Build-Once and Deploy-Everywhere. We provide software architects and developers with a suite of tools to build, test, and monitor exciting new applications in a unified environment.
